Having purchased several stocks of Pianos at about half the cost to manufacture them, together with another shipment thrown upon me by another change in business, I am offering to the people of Greenville and vicinity the greatest bargain ever known in a retail sale. The price I paid for these Pianos enables me to sell the Pianos at less than wholesale cost and still have a reasonable profit left. One hundred and fifty Pianos must go in this ten days' sale, and we invite you to come and see the stock whether you wish to purchase or not. All Pianos marked in plain figures and every piano is guaranteed to be as represented. These Pianos will go like hot cakes and if you stay away and wonder if we have what we claim till they are sold and then pay \$400 to some dealer for the same piano that we offer you for less than half that price, you should not kick anyone but yourself. The world's finest Pianos are to be had in this sale, and no such assortment has ever been offered in your city before this and not likely to be again in twenty years.

Mr. Chronic Knocker

May tell you to pass this Sale on because we are making money on the sale, but a 10-year-old boy can explain why it pays to buy at a sale when the goods were bought at 10 cents on the dollar and then sold at LESS THAN WHOLESALE PRICE. If we sell 100 Pianos in 10 days at only \$100 each, we have made money, and you have had a chance to buy a Piano that could not be expected again in a lifetime.

Ask Any Piano Dealer

About how these Pianos stand and what they sell for. Of course it is to their financial interest to refrain from saying good words concerning these Pianos, but I am willing to trust to their honor to tell you the facts.

Ask Any Music Teacher

Even though they may be selling 125 to recommend the other Piano, and they will be forced to speak in the highest terms of these Pianos or else display ignorance by condemning the judgment of all the World's Fairs as well as nearly all the leading conservatories and colleges of music in the United States and the choice of nearly all the great musicians of all the civilized world. Ask your Piano tuner both as to quality and price.

Pianos on Easy Terms

These Pianos can be had on monthly payments of \$8.00 per month, with a small payment down, and our Mr. Couch was born and reared near Greenville and is yet comparatively a home man, and if you ask your merchant, banker or credit agency they will tell you that he is able to give terms on Pianos and that a guarantee or contract made by him is as good as your bank's. Mr. Couch has been in the Wholesale Piano business for a number of years and this is the best purchase that he ever saw in a stock of Pianos. A man of ordinary means can own a fine Piano at these prices.

Do You Relish Facts?

Your local musician or dealer, and others, may have told you many facts about Pianos, but you will confess that you cannot get more inside facts about cost, quality, etc., in ten minutes if you will visit the Sale than they will volunteer to tell you in ten years.

Notice unless of Pianos at big Sale that would cost \$100.00. Read the prices on a few as follows:

One \$250.00 New Oak Case Upright Piano	\$57	One Branded Upright Piano, large size, regular	\$43
One \$300.00 Upright Piano	\$78	One New \$400.00 A. B. Chase Upright Piano	165
One New Large Upright Oak Piano, the same as sold here regularly at \$350.00	\$73	One New Solid Oak Case Upright Piano that sold everywhere for \$250.00	125

No Piano sold for more than regular wholesale price, and many are sold for 40 per cent less than factory cost. Again, we invite you to come, and come quick, and bring your musician, tuner, or your local dealer to pass judgment upon the great stock of 150 Pianos.

Remember that Mr. Chronic Knocker is Knocking Against Your Interest and Not His Own Every Piano Guaranteed to be as Recommended.
